LEGAL TALENT TELLS.

The Attorneys Come Out Ahead In Their Official.

Base Ball Combined With Oratory and Ground and Lofly Tumbling.

All over the fair grounds yesterday

the attorneys came out ahead in their official. Occasionally they varied the entertainment by throwing a bat at the umpire. It was a ball game and when the disturbance ended the attorneys had won by a score of 31 to 15.

No game ever played in the city attracted quite so much attention. Four hundred people saw to it personally that nothing was overlooked. There was not only one umpire. The crowd was not only uniformly. When one detachment would be straining its lungs in persuading the base-runner to "steal second," the other half would be yelling in a voice louder than Cole McLean's base—"Hold your base! Hold your base!"

When trouble of this kind arose, the base-runner usually looked about him anxiously for a moment and then asked advice from the umpire.

It was a game with many novel features. One was that the men of having an outfield seemed almost forgotten. Carriages were drawn up all along the base-lines from first to third; and appreciative groups of small boys sat around second base, giving advice to the players.

The game opened with Sloan and Carpenter in the points for the attorneys, and Doe and Baker for the officials. The attorneys went to bat, but retired without a run. Then the officials came up, and although unable to hit Sloan's curves, they managed to gather in four runs. It began to look as if city influence was not without weight, after all.

In the second inning the officials made one run and the attorneys two. George Parker was caught at the bat by the attorneys, but pounced at once to well and was hoisted.

Sloan opened the third inning with a high fly that sent him on his way around the bases. Richardson also did well. "Thur. G. G. Sutherland won glory with a 'burn' to Alderman Casey at third. Casey dropped on the ball like a hawk on a June bug, and after chasing it around his foot with his hands a few times, shot it to first. It went a little bit high. City Treasurer Murphy ran him up in the air like an extension spring glass, but the ball was out of reach and a seething party had to be sent into the adjoining arena field after it.

Meanwhile Attorney Sutherland centered around and made a home run. District Attorney Malone came to the plate next, with the same kind of a look that he wears when filing information in the municipal court.

"One strike," said the umpire.

"May it please the court," put in the better, "I would like to file a writ of objection."

The protest was unheeded, and as a mild sort of revenge the district attorney proceeded to send a runner buzzing out to center field. Alderman Barber's head his feet, waved his hands over his breast and prepared to receive it. But meanwhile the Ballot lawyer was blowing how they used to play ball when he was in college. He was in his shirt sleeves, and his legs twinkled along the base-lines like the pistons of a steam engine under high pressure. Everybody stopped to watch. With his trousers legs tied around his ankles with twine, and with the brim of his soft hat flapping in the wind, he resembled in appearance a Methodist cow-boy.

"Run! Slide! GO!! You've got to go!" was the encouraging chorus.

And go he did. He came down toward the plate with a rush that carried him half way to the base stop and sat down, amid cheers, to recover his breath.

When the officials finally succeeded in getting in, Alderman Baker picked up a bat and pounced viciously on the plate for a highball. He didn't hit, however, and ambled down to first on three strikes. Then City Attorney Doe lightened his infantry belt, wiped savagely at the ball and followed his predecessors example. Alderman Casey went one better. He hammered out a safe base-hit and then stole second. Alderman Conrad waved his bat around his head and sent a foul up into the grand stand.

"Run!" somebody shouted; and he took the advice. He reached first, looked around to see if anyone was chasing him and then struck out for second. Most of the other players were looking for the ball; but they heard a burst of applause and looked around just in time to see the third baseman from the third ward trotting over the plate and claiming a home run.

Alderman Patterson batted a fly out to John Mezzies who had, until now, been indulging his appetite for sport in a one-handed game of mumblety-peg. The crowd yelled and John looked up from his engrossed amusement to see the ball rolling past him. After carefully shutting his knife he started in pursuit. Everyone else in that part of the field was also running and when John stooped to pick up the ball Emmott McGowan, who was close second in the race, made a slip to stop. He slipped between Mezzies' legs and kicked the ball into renewed activity. The conversation that followed is not in the score but after the bases had been cleared somebody landed out a new ball and play was resumed.

Hogan occupied the box in the first half of the fourth. The first ball pitched barely missed the roof of the judge's stand while the second took Al. Wickham in the ribs. Al. generally refused to take his bat, and consequently fished about on three strikes and Harry Sloan followed. Richardson who had recently been playing tennis, made a one handed stroke at the ball and landed it somewhere near second base. G. G. Sutherland came to bat next, but made a foul tip, and Alderman Baker, after sighting a moment through the bird cage that graced his head, pulled the ball down to a safe resting place. Richardson managed to get around almost to third base, but the ball he reached the base just a moment before he died, and he walked in to nurse his grief.

So the game went on. Both sides changed pitchers until the scorers head

An Action That Involves the Patent on Automatic Harvesters.

J. E. Marsh's Suit Against Harris Manufacturing Co. Now on Trial.

A battered, rust-enthusiast harvester

numbered on Court street yesterday afternoon, and found a lodging place in the park. It was not a harvester at all; much attention. Its best day had been many years ago. But that harvester represented a principle, and that principle was the one of those men factured by the now re-christened Harris.

The machine was one of those manufactured by the now re-christened Harris. On it hinged the suit of J. E. Marsh against the Harris Manufacturing Co. The trial was begun this morning, A. A. Jackson occupying the post of the foreman in reading the complaint. Many of the witnesses in the case are from the city of Milwaukee, of Chicago and of the Harris Manufacturing Co. of Chicago.
